PRICES PAID ILLINOIS TIMBER GROWERS
MAY 2015 THROUGH AUGUST 2015

This report is prepared by the Illinois Department of Natural Resources - Division of Forest Resources in cooperation with timber buyers, forestry consultants and division foresters who participate in the semi-annual survey. Illinois timber prices from price surveys are now calculated and published on a statewide basis (combining the historic southern, clay-pan and prairie zones). Ranges of prices paid and averages price paid across the state are shown. This report can be used only as a guide for determining market value of timber. General market and economic conditions are the major price-determining factors. Local considerations such as markets, site conditions, timber accessibility, topography and terrain, distance to markets, tree size and quality, size of sale and other factors also affect prices paid. Please contact your local state forester's field office (District Forester) or the Division of Forest Resources headquarters at One Natural Resources Way, Springfield, Illinois 62704. Phone: (217)782-3376

ILLINOIS TIMBER PRICES WINTER 2018/2019

ILLINOIS DEPARTMENT OF NATURAL RESOURCES - DIVISION OF FOREST RESOURCES
One Natural Resources Way Springfield, Illinois 62702

Nov. 2018 through Feb. 2019

This report is published by the IDNR, Division of Forest Resources in cooperation with timber buyers, mills, forestry consultants and foresters who participate in a semi-annual survey or report sale results. "Stumpage" is the price in the woods on the stump. "FOB" is the price for cut timber/logs delivered to a landing or mill. Ranges of prices paid show highest and lowest reported. The average price paid across Illinois, by species, is the best estimate of market value of timber during the period. Actual prices buyers pay are subject to US and global market and economic conditions combined with local factors such as markets, transportation costs, site conditions, timber accessibility, topography and terrain, distance to markets, tree size and quality, size of sale and other factors. We advise landowners to contact their District Forester's office directly or the forestry division office in Springfield before selling timber.
